

Sun Control,
Safety, Security

Preserving Beauty
and Enhancing Light

as only 3M can

Sun Control,

A clearly better way to bring light into your home

Now the light that fills your home can be just the way you want it. Clear, neutral, colored, protective — 3M™ Window Films make natural light a beautiful and welcome addition to your home.

For more than 40 years, 3M has been a leader in improving light with window films. You can rely on us to help protect your family and furnishings against ultraviolet rays, severe weather* and vandalism — all while providing you with comfort from heat and glare.

You've invested so much time and energy into making your home beautiful and inviting. Now you can be sure it stays that way with 3M and our authorized window film dealers. Trust 3M to help you enjoy your light, your way.

Your shield for better safety, security and accident prevention

Keeping your family and home out of harm's way is our window film's first, and most important, task. The impact of unwelcome elements like severe weather, vandalism and ultraviolet rays, are all reduced with 3M Window Films.*

In destructive weather, one of the greatest dangers to your family is the threat of flying broken glass. All of our 3M Window Films help hold the glass in place to aid in the prevention of flying glass and dangerous shards.*

3M Window Film helps deter burglars by eliminating their most crucial weapon... time. Burglars who smash glass in windows or doors rely on quick and easy access for a successful break-in. A door or window that slows them down is one that will probably make them go away.

Safety, Security

Protect your investment

Fabrics, wallpaper, natural wood floors, photos and other valuables will fade when unfiltered sun shines through your windows. Fading is caused by a combination of ultraviolet rays, visible light and solar heat. 3M Window Films are designed to reduce the effects of solar heat and visible light on your furnishings and will block up to 99% of the sun's harmful ultraviolet rays, which are the single largest cause of fading.

Save money

3M Window Films also allow you to save money and enhance the comfort of your home by reducing your air conditioning costs. Our films help reduce up to 78 percent of the sun's heat that comes through the window by reflecting it away from your home.

Ensure your peace of mind

Not only do our window films protect your home's interior, they also help to protect your family against skin cancer caused by daily UV exposure and reduce the amount of glare on TV and computer screens that comes into your home through your windows.

Another great 3M product you can trust in your home

3M invented window films

No one has more experience with window film. In 1966, we received the first patent for window film. Today there are millions of square feet of 3M Window Films installed all around the world.

3M is the world leader in window films

For decades, 3M has been the world leader in the development of new and innovative adhesives. We have the finest selection of window films that resist peeling, bubbling, scratching and abrasion for long-lasting beauty and clarity.

3M Window Films are installed by authorized dealers

3M Window Films are sold and installed exclusively by professional, authorized 3M dealers. To ensure quality workmanship, the people who install your film are professionally trained by 3M personnel.

3M stands behind its products

Selecting 3M Window Films gives you peace of mind. That's because we have one of the most comprehensive warranties you can get. 3M Window Films are backed by a limited-lifetime warranty should your window film need replacing.

Put the innovation of 3M to work for you

Put your trust in 3M Window Films, a name you know for quality products and service. We never stop creating new window film products and solutions that make your home more comfortable.

Our 3M authorized dealers are proven experts in helping solve problems like excessive glare, temperature imbalances and helping to reduce the rate of fading. They are skilled solutions providers for glass safety and security, comfort and privacy.
